MANITOBA POPULATION ESTIMATES - January 1, 2002

	January 02	October 01	January 01
POPULATION	1,149,100	No change	up 1,600
NET MIGRATION	**(January to December)**	**2001**	**2000**
	Interprovincial	-4,549	-3,624
	Total	-2,089	-391

Manitoba's total population was estimated at 1,149,100 persons as of January 1, 2002, unchanged from the October 1, 2001 estimate. But population growth continues on an annual basis, with Manitoba's increase since January 1, 2001 estimated at 1,600 persons, or 0.1%. Our annual growth rate of 0.1% ranked sixth when compared to other provinces and was below Canada's 0.9% gain. All of Manitoba's estimated population gain last year was the result of natural increase.

We recorded a net loss of 4,549 persons to other provinces through interprovincial migration in 2001, up from a net loss of 3,624 persons in 2000. In 2001, Manitoba gained population on a net basis chiefly from Saskatchewan (410), while most of the losses (as in past years) were to Alberta (-3,122), British Columbia (-967) and Ontario (-861).

Interprovincial migration is generally offset to some degree by other types of population movement (international migration, Canadian citizens returning from abroad, non-permanent residents and Canadians temporarily abroad). When these other forms of population movement are combined with interprovincial migration, Manitoba recorded an overall net migration loss of 2,089 persons in 2001, well above the net loss of just 391 persons in 2000.

JUNE 26, 2002

MANITOBA POPULATION ESTIMATES - April 1, 2002

	April 02	January 02	April 01
POPULATION	1,150,000	Up 900	up 1,700

NET MIGRATION (January to April)	2002	2001
Interprovincial	-443	-424
Total	486	424

Manitoba's total population was estimated at 1,150,000 persons as of April 1, 2002, up 900 persons from the January 1, 2002 estimate. Population growth continues on an annual basis, with Manitoba's increase since April 1, 2001 estimated at 1,700 persons, or 0.1%. Our annual growth rate of 0.1% ranked sixth when compared to other provinces and was below Canada's 0.9% gain. The majority of Manitoba's estimated population gain over the last quarter was the result of international migration.

We recorded a net loss of 443 persons to other provinces through interprovincial migration in the first quarter of 2002, slightly up from a net loss of 424 persons in 2001. In the first quarter of 2002, Manitoba gained population on a net basis chiefly from Saskatchewan (334), while most of the losses (as in past quarters) were to Alberta (-499), Ontario (-171) and British Columbia (-148).

Interprovincial migration is generally offset to some degree by other types of population movement (international migration, Canadian citizens returning from abroad, non-permanent residents and Canadians temporarily abroad). When these other forms of population movement are combined with interprovincial migration, Manitoba recorded an overall net migration gain of 486 persons in the first quarter of 2002, slightly above the net gain of 424 persons in 2001.
